

Partner: YORK ART ASSOCIATION

The 2018 grant review panel offers the following comments after reviewing your application and hearing your presentation at our meeting:

The panel noted the decrease in community partnerships and campaign participation over the past year even as the leadership requests an increase in funding from the Cultural Alliance. The panel is encouraged that the current board is exploring future partnerships in the community and expanding its gallery group locations, and looks forward to more board participation in the campaign in 2019.

The panel encourages the board to create a more formal strategic plan for the next few years, including contingency planning on Route 83 project.

The panel congratulates the organization on their fiscal strength and use of resources.
